To All Whom This May Concern:

I write to recommend Sandra Wilson for any position for which Sandi qualifies. Sandi has been a faithful, competent and dedicated employee of Maricopa County for over 18 years.

Sandi has served as Deputy County Manager since 1998 with primary responsibility to oversee the County's \$2.2 billion budget. Sandi also has direct responsibility for the departments of the Office of Management and Budget, Workforce Management and Development, Office of Enterprise Technology, Risk Management, Correctional Health Services, Business Strategies and Health Care Programs, and Research and Reporting.

From December 2008 and through February 2009, Sandi served as acting County Manager, and always maintains the highest professional standards. Sandi has served the people of Maricopa County in her capacity as Deputy County Manager despite tremendous and extraordinarily adverse circumstances beginning in 2006.

As an elected board member of the Maricopa County Board of Supervisors, I have personally observed Sandi's professionalism and outstanding service to the people of Maricopa County. It is based on those personal observations that I can wholeheartedly recommend her to you.

Sincerely,

Don Stapley  
Supervisor, District 2
